Master of TEACHING (EARLY CHILDHOOD)

Graduate career-ready with the knowledge and skills you need to start a rewarding career in early childhood teaching, focusing on the education of children up to eight years of age.

Practical focused learning will feature throughout your studies, linked to your industry experience. Additional experiences, such as the “Celebrating Cultural Diversity program” are embedded in the program, offering you the opportunity to connect with others, explore education settings and develop your skills and confidence.

You will also be able to access the Samsung SMARTSchool – a high-tech, state-of-the-art learning space at Magill Campus.

REAL-WORLD CONNECTIONS

Workplace learning is a major focus of this master degree. Throughout your studies you will complete 80 days of field-based placements which will take place in childcare centres, preschools and junior primary settings. These placements will help to build industry networks and relationships.

Male students will also be offered the opportunity to build professional and social networks with male educators who have successfully graduated as part of the University’s MENTor Program.

Curriculum Specialisation
Early Childhood Professional
Experience and Reflection 3
(Preschool)

"Every Master of Teaching student needs to complete three teaching practicums. The teaching practicum might be a little challenging for students who are not experienced, but each one of us was assigned a mentor from the University, a site coordinator, and at least one more mentor from the school who constantly supported us."

Yining Guo CHINA Master of Teaching
